DIGITAL LITERACY FOR STUDENTS

What is Digital Literacy?

- Ability to use digital tools and technology effectively
- Finding and evaluating information online
- Communicating responsibly on digital platforms
- Protecting personal information on the internet

Useful Digital Tools for Students

- Google Docs – writing and collaboration
- GitHub – storing and sharing projects
- LinkedIn – professional networking
- Canva – creating presentations and designs

Safe Internet Practices

- Use strong and unique passwords
- Never share OTP or personal information
- Check website links before clicking
- Avoid downloading files from unknown sources

Professional Online Presence

- Keep profiles professional
- Use respectful communication online
- Share academic and project achievements
- Build a positive digital reputation
